

Jigsy.com and Bravenet.com partner to provide “BraveSites”

PARKSVILLE, BC – June 9, 2011 - Jigsy.com, a fully hosted on-line website builder and Bravenet.com, a leading web apps and webhosting provider, today announce a new partnership to provide “BraveSites”, a point and click website development tool, to over 12MM Bravenet.com members. The BraveSite builder will be made available to members at the recently redesigned Bravenet.com. BraveSites is the newest addition to Bravenet family which already features BraveApps, BraveDomains, BraveMailer, and BraveHost.

“We have been getting numerous requests from users for an easy to use, real time, site builder,” says Anna Love, head of Business Development with Bravenet. “By partnering with Jigsy to develop a new brand we have given Bravenet members just that. BraveSites offers our member base yet another way to design, build, and maintain a web presence. Better yet, it allows them to do it for Free.”

“The Jigsy platform is second to none. It’s intuitive, simple, and extremely easy to use. It is a great addition to the tools provided at Bravenet,” continues Love.
